REACH (Registration, Evaluation, Authorization and Restriction of Chemicals) – EC 1907/2006

The Regulation, Evaluation, Authorization, and Restriction of Chemicals (**REACH**) is a European Community Regulation related to the safe use and identification of chemicals (Regulation (EC) Number 1907/2006).

REACH entered into force on June 1, 2007 with the aim of improving the protection of human health and the environment through better and earlier identification of the intrinsic properties of chemical substances. REACH was aimed at streamlining and improving former European Union chemical legislation by replacing approximately 40 individual pieces of legislation and harmonizing with the remaining legislation. The new legislative framework under REACH shifts responsibility for the control and safety of chemicals from government authorities to industry and created the European Chemicals Agency to act as a central coordinator.

With reference to regulation 1907/2006/CE of European Parliament and Council concerning Registration, Evaluation, Authorization and restriction of Chemicals (**REACH**), VDS RAIL confirms its commitment and awareness in granting the compliance of all its products with this regulation.

With reference to Substances with Very High Concern (**SVHC**) in attachment (**Table 1: Candidate List**), we are able to state that they are lower than 0,1% w/w in our final products.

For informational purposes, VDS Rail has contacted its material and manufacturing vendors who have confirmed that products do not contain SVHCs above a concentration level of 0.1% w/w.

VDS Rail srl does not have to pre-register substances which are subject to European Community Regulation REACH.

The above certification is applied to all codes supplied by us.

Should we become aware of any change to this situation, we will immediate notify our customers.
